Professor Joshua Lederberg
Department of Genetics
Stanford University School of Medicine
Stanford Medical Center
Palo Alto, California 94304

Dear Dr. Lederberg:

Enclosed is a copy of the filing made by American Telephone and Telegraph Company on December 15, 1966 in F.C.C. Docket No. 16495 related to domestic satellite services. From your letter to the Commission of December 29, 1966 I assume you are only interested in the proposal which we made at that time, not the filing made August 1, 1966. If I am incorrect, please let me know.

I recently sent a copy of our filing to Professor Wilbur Schramm, who was a contributor to the December filing by the Ford Foundation. He would probably have a copy of the Ford filing also.

If I can be of further assistance, please let me know. If you happen to see Dean Manning, please tell him hello for me. I had expected that I might see him back here some time this winter at one of the Stanford functions.

Very truly yours,

Donald W. Morrison
